CAREER SUMMARY:

FrontEnd Developer with over a year of commercial experience and a strong background in freelancing. Successfully delivered dozens of landing pages and developed several e-commerce stores for businesses across various industries. Played a key role in a startup focused on building a tourism marketplace, contributing to the design and development of a scalable and user-friendly platform. Skilled in cross-functional collaboration, consistently working with clients, designers, back-end developers, and DevOps engineers to ensure project success.

WORK EXPERIENCE:

Glamp

React Frontend Developer | June, 2024 - February, 2025

- Core Contribution to Tourism Marketplace Development: Played a pivotal role in designing and developing a scalable and user-centric marketplace tailored to the tourism industry.
- FrontEnd Architecture Design: Led the implementation of the FrontEnd architecture using modern frameworks and tools, ensuring clean code, reusability, and maintainability.
- Feature Development: Developed and optimized key platform features, including search functionality, booking systems, and user dashboards, providing seamless experiences for both end-users and administrators.
- Cross-Team Collaboration: Worked closely with backend developers, designers, and product managers to ensure consistent implementation of business requirements and design principles.
- Performance Optimization: Ensured high platform performance by implementing best practices in coding, testing, and deployment. Reduced page load times and enhanced responsiveness across devices.
- Problem-Solving Under Startup Conditions: Adapted quickly to evolving requirements and tight deadlines, maintaining focus on delivering a functional and market-ready product.
-

Toptal

React Frontend Developer | December, 2023 - December, 2024

- Landing Page Development: Designed and developed modern, visually appealing landing pages tailored for businesses and marketing campaigns, ensuring seamless mobile responsiveness and fast load times.
- Website Maintenance and Updates: Diagnosed and fixed coding errors, optimized website performance, and implemented new features based on evolving requirements. Updated existing designs and content to align with client needs and brand guidelines.
- Integration with Third-Party Services: Successfully integrated third-party tools such as payment systems, feedback forms, interactive maps, and more to enhance website functionality.
- Client Collaboration: Maintained clear and regular communication with clients, ensuring all deliverables met deadlines and were aligned with their specific requirements and business goals.
